

# School closure – 25<sup>th</sup> November 2024

## Home learning

Please read your reading book, and write a sentence or draw a picture of what you have read.

## Maths

$16 + 8 = \underline{\quad\quad}$

$17 - 8 = \underline{\quad\quad}$

$17 + 5 = \underline{\quad\quad}$

$25 - 7 = \underline{\quad\quad}$

$32 - 6 = \underline{\quad\quad}$

$16 + 7 = \underline{\quad\quad}$

# Reading comprehension

## All About Bees

### Where Do Bees Live?

Bees can be found all over the world except in Antarctica.

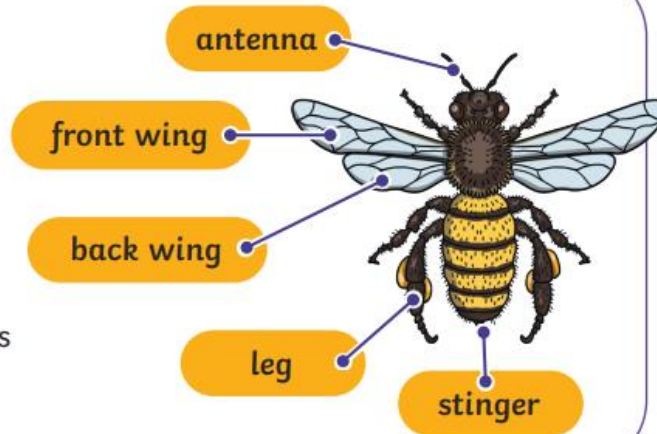

Some types of bees live in groups called 'colonies'. Other types of bees live alone.

### What Do Bees Look Like?

Bees are a type of insect. They have four wings and six legs.

Only female bees have stingers. They use their stinger to protect themselves and their nest.

### What Do Bees Eat?

Bees get all their food from plants.

They like to eat nectar and pollen from flowers. Nectar is a sticky liquid. Pollen is a yellow powder.

## Types of Bees

There are lots of different types of bees! In the UK, the most common types of bees are honeybees and bumblebees.

### Honeybees

Most honeybees live in beehives.

They make honey so that they have something to eat in winter. This is because there are fewer flowers to feed from.

Honeybees perform a 'waggle dance'. This is a way of moving their bodies to tell other bees where they can find food.

### Bumblebees

Bumblebees live in nests. Some types of bumblebees build their nests underground.

Bumblebees have smelly feet! They use this smell to tell each other apart.

# Questions

## All About Bees

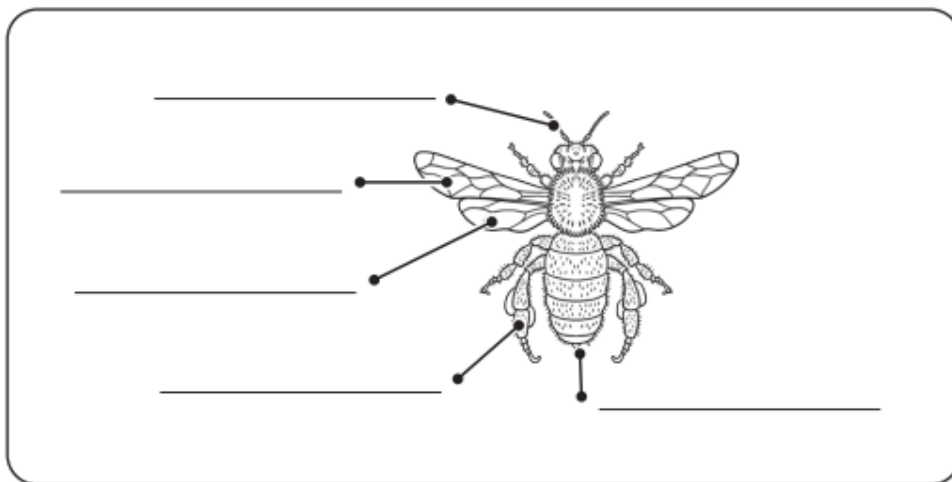

1. Bees can be found all over the world, except in \_\_\_\_\_. **Tick one.**

- the UK
- America
- Antarctica

2. What are groups of bees called?

---

3. Label the bee.

4. What do bees like to eat?

---

5. Fill in the missing word.

**Bumblebees have \_\_\_\_\_ feet!**
