

In **English** we'll use 'The Write Stuff' scheme to work on a narrative based on 'George and the Dragon' and a setting description based on the story 'Little Monkey.'

In **computing** we'll be using j2e to create pictograms to represent data.

In **PSHE** we'll be learning about how our bodies change as we grow older.

## JEFFER'S CLASS TERM 6

In **Music** we'll be experimenting with singing games, traditional Polish dances, following a changing beat and tempo, body percussion patterns and playing percussion instruments.

In **R.E.** will be considering how stories inspire actions; in particular, kindness.

In **Geography**, we will be asking what it is like to live near the coast. We will learn about the seas and oceans surrounding the U.K and consider tourism in the popular coastal town of Weymouth.

**Home-learning** will be based on making sure children read and practise weekly spellings at home and supporting families to engage with the week's learning across the curriculum.

In **Science** this term we'll be learning all about keeping ourselves healthy by looking after our bodies and making positive and healthy food choices.

Our **DT** unit we will be making fruit kebabs; considering which fruits are the most popular and which will be the easiest to thread onto the skewer.

In **P.E** this term we'll be exploring different types of athletics skills in preparation for sports day as well as doing tag rugby with the In2Sports coach.

In **maths** we'll continue learning about telling the time, we'll be consolidating learning on the four operations and learning about statistics and position and direction.
