

Vocabulary	
Past	An event that has already happened.
Present	An event that is happening now.
Modern	Having to do with present times.
Period	A measurable length of time.
Decade	A unit of time equal to ten years.
Similar	Things that are alike but not the same.
Different	Things that are not the same or alike.
Beyond living memory	Events that happened over 80 – 100 years ago.
How were schools different in the past?	What has stayed the same and what is different in classrooms?
What was school like in Victorian times and the 1960s?	Would you prefer to have gone to school in the past or today?

In living memory - historical events that happened within the lifetime of people that are still alive today.

Making comparisons involves identifying similarities and differences between the past and the present.

A timeline is a visual tool that helps us to understand the order of events in chronological order.

Timelines can help to show how events in history are related.
